## SHARKS (5 Year Olds)

Hello parents,

Welcome to the month of August! It has been a wonderful time being your child’s teacher and learning about them. Your children have been adapting very well to the changes in their school environment. In the month of July, students enjoyed learning about Ocean. We will continue to study different habitats.

In the month of August, I will introduce the children into two different habitats, if possible, “The Savanna” and “The rainforest” We will learn about the different animals and plants that live in those habitats and the different types of weather. Please if you have any books that relate to those habitats, feel free to share with the class.

Just a quick reminder to continue bringing your child with a mask. Make sure they have two extra masks in their cubby.

## BUTTERFLIES (4 Year Olds)

Hello parents!!! Unfortunately, July has come to an end. We enjoyed this month learning a lot about the Ocean. We learned so much about different types of oceans and its colorful sea animals. We wanted to see it up close and personal that we even welcomed our new pet fish! This upcoming month will be fun and full of emotions since we will be saying our goodbyes to our graduates that remained with us this month. To help our fellow graduates' transition into kindergarten, we decided to do a KINDERGARTEN UNIT. We will discuss kindergarten schedule, rules, and expectations. Also, halfway the month we will also learn about Farm and Zoo Animals. As usual we will have our focus of the week with a new letter, number, color, shape of the week and site words.

If you all have any questions, please don't hesitate on emailing us either at [Carina@toddlertownevanston.com](mailto:Carina@toddlertownevanston.com) or [angelica@toddlertownevanston.com](mailto:angelica@toddlertownevanston.com) or [Robert@toddlertownchicago.com](mailto:Robert@toddlertownchicago.com)

## CHIPMUNKS (3 Year Olds)

Hello parents! AND WELCOME AUGUST! We have reached a new month again! Doesn't time feel like it is flying by? It sure does when you make learning FUN!

Here is how this month looks like:

For the first week of August, we will introduce the study of the body. Children will practice naming parts of the body, inside and outside!

For the second week, children will learn about what foods are good to maintain a happy and healthy body! In honor of this week, Ms. Jaz and I would like to make a healthy and fun picnic by the end of the month! We will be asking all parents to contribute if possible.

For the third week of the month, we will be discussing all the fun active activities that help maintain a healthy and happy body! I would like to encourage parents to bring in children in workout gear as this week will be "Exercise Week"!

Finally for the last week, The Chipmunks' will do the study of the human brain. During this week, children will practice small studies of how the brain looks like, how it grows, and functions!

The Chipmunks are excited for all the units August is bringing!
