Where Your Child
Always Comes First

SHARKS (5 Year Olds)

January was so much fun! We had a great time learning about the science behind winter and Snow. We also learned about Martin Luther King Jr. and about his dream. Children promised to change the world for better and were very enthusiastic to share their dreams for the future world.

In February we will learn about dental health, Presidents Day and Dr. Seuss. We will continue focusing on writing letters/numbers and sounding out letters. Children are enjoying when the teacher spells out their names while taking attendance.

If the weather permits (hopefully) we will try to go out to play; parents, please send your child with warm jacket, snow pants, gloves, hat and boots. Our children don't want to miss the snow fun. 😊

BUTTERFLIES (4 Year Olds)

Hello Parents and Happy FEBRUARY !!!!!!!!!!!!!!! We want to start off by saying thank you to all the parents that participated in our ICE experiment and made our unit a success . Please stay on the look out for more take home activities for your family to spend some quality time with one another during the brutal Chicago weather. We are planning a PFA field trip and are going to have tentative dates for you by the middle of the month.

The month of February will bring us into a new unit of friendship, polar bears and famous African Americans. Please remember that if you have any questions, comments or concerns do not hesitate to see one of us in the classroom. Report cards are right around the corner. Please remember to sign up for a parent/teacher conference. We will have the sign up sheet up in the class by the middle of the month. Thanks from the Butterflies EXT 14

Where Your Child
Always Comes First

CHIPMUNKS (3 Year Olds)

February is all about love and friendship (my favorite month) We will discuss what friends are? Why is it great to have a friend? What we like about our friends? What can you do with your friends? We will also be hosting a friendship party on Thursday, February 14. (Please see teachers for more information.) Throughout the month we will also be engaging more in numbers, shapes, graphing, writing and word recognition. We will continue to promote more physical development; fine and large motor control exercises include cutting lines, tracing lines, drawing and painting. I have a new activity for my advanced students something I used to do in the five-year-old class with Mrs. Jaya; simple mimicry of the letters and numbers I draw or create before them. Practice makes perfect!

BUMBLEBEES (2 Year Olds)

The month of Love and Friendship is here, FEBRUARY! Children had lots of fun in the month of January discussing Hibernation, migration, adaptation, arctic animals, shapes and colors. Children are becoming more familiar with shapes and colors and the older ones are becoming more comfortable describing the shapes and are motivating the younger twos. During the month of February, we will continue with shapes and colors, since we have lots of new little bodies, and because I want to be sure that the ones that move over to the 3's are comfortable and are ready to move to the next level. Along with shapes and colors, children will have fun learning about Friendship, counting, teeth and DR. SEUSS. **Our Friendship party will be held on February 14, 2019**, Ms. Norma will be giving all parents a list of items to bring in to make every child feel special on that day, so please be sure to sign up! Also, children must wear red, pink, purple or white to their party. Thank you in advance!
