Where Your Child
Always Comes First

SHARKS (5 Year Olds)

Dear parents, we have enjoyed summer at our best; went to the nearest park, took nature walks, enjoyed learning about each other, each other's interests, washing hands and our family. Fall is here, the month of October will be filled with lots of fall activities; coloring, collecting & painting the fall leaves. Learning about pumpkins, bats and spiders will be spooky and fun. We will dress-up for FALL FESTIVAL on October 31st. We will focus on letters, numbers and shapes as we always do. Learning to recognize and writing our names is important in pre-K, so please help your child practice writing their name at home. The weather is changing and we go outside twice a day to improve our gross motor skills, so please have your child bring a light jacket to school. Thank you so much! Happy October ☺

BUTTERFLIES (4 Year Olds)

Autumn is finally here!!! In the month of September, our children were introduced to our beginning of the year unit, "All about me". Our children were learning about our wonderful classroom, the areas of play in our classroom and most importantly our classroom rules. This unit is so important because it deals with our social emotional skills, and before getting deeper into learning we must understand this unit. Once our students show readiness for our next unit, the children will be introduced to our tree unit. It's the best season to work with the tree unit since a lot of changes will be happening outdoors. Our outdoors will be the best resource to use to our advantage with the tree unit. Please make sure you go over rules with your child before entering the classroom!!! Thanks from the Butterflies, Mrs. Maritza, Ms. Jasmin & Mr. Robert. Please if you have any questions feel free to contact us at 847-475-1467 EXT 14

Where Your Child
Always Comes First

CHIPMUNKS (3 Year Olds)

We sure had fun in September with the All About Me Unit, we learned so much about each other, our likes, our dislikes, our favorite colors, and our favorite foods. We discussed our classroom rules and our classroom routines. Thank you to the parents that participated in the All about Me poster project! Children had so much fun presenting! In the month of October, we will start our unit about Trees! What do we want to know about trees? How do they grow? What is happening to the leaves? We will also learn about different types of trees, the parts of a tree and of course all the delicious food that we get from them. We will have frequent nature walks around the school to observe the changes in the trees. (please bring cozy sweaters and comfy shoes) Children will be recording observations in their journals. Towards the end of the month we will transition to an apple & pumpkin theme. Fall Season here we come.

BUMBLEBEES (2 Year Olds)

Welcome to the month of October Families! I want to wish everyone an AMAZING FALL SEASON, my most favorite season of all. During the month of September, children had lots of fun learning about their five senses, their likes and dislikes, their body, their feelings and emotions, their families and were also introduced to FALL. These are all amazing topics that the children have learned lots from. Now that we are done with those topics and we are in the season of fall. Children will learn about the season and the types of things and events that happen during this amazing season. During the month of October children will be discussing trees, fire safety, School bus safety, October/fall fun and Pumpkins! On the 31st of October, children will be having a harvest party, children will have fun painting pumpkins and decorating them and dressing up on that day. Children are more than welcome to bring sugar free treats, stickers, pencils, stamps and so forth for them to pass out to their friends as long as it is enough for 20 children. I will be creating a list for you all to bring certain items for their small harvest party. If you have any question, please don't hesitate to reach out to one of us. THANK YOU IN ADVANCE AND LET THE FUN BEGIN!!!
