

Happy March families! Time is flying so fast that we have finished up February and are now in March. This month we will be asking parents to update their contacts numbers again so that we can have on file in case of an emergency. It is important parents to update your contact numbers whenever you change them.

Also parents, report cards are ready for your child. If you have not already signed up, please be sure to do so soon so that you can meet with your child's teacher to go over your child's progress.

This month we also welcome two new teachers to our Toddler Town Family. They will be taking over the Teddy Bear room with our little ones. Welcome Ms. Merry and Ms. Nikki!

These days are only getting colder and more people are getting sick. Again, we are asking parents to you make sure you wash your child's hands upon arrival. Also, if your child is sick we ask that you keep them at home and notify the school so we can take necessary steps in making sure the school continues to be germ free. Also, parents if you give your child medication we ask that you keep your child home so that they are able to recover.

-Toddler Town Thanks You!-

REMINDERS:

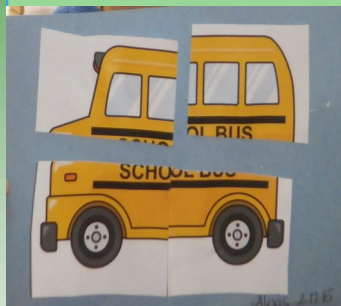

- Update contact numbers!
- Report Cards are out.
Sign up to go over your child's report card if you haven't already done so.

"May your troubles be less and your blessings be more. And nothing but happiness come your way."

-An Irish blessing-

HELLO and WELCOME to the THE 2 YEAR OLD CLASS-ROOM!!! We'll be your guides, THING 1 (Miss Merry) and THING 2 (Miss Nikki)! We will begin a marvelous March with a birthday bash for Dr. Seuss! We will celebrate this literary geni-

us by reading his masterpieces and creating works of our own. We will segway mid-month into nursery rhymes. With spring right around the corner, we will begin to talk about the weather changes in Science. Art will be comprised of all things

Suessical and holiday themed. We are very excited to be here at Toddler Town! We cannot wait for the fun to begin! "Look at me! Look at me! Look at me NOW! It is fun to have fun, but you have to know how." -The Cat in the Hat, Dr. Suess-

Ms. Jackie and Ms. Irene's Butterflies Class 3-year-olds

Can't believe we are already in March! Last month was fun as the children learned about USA presidents in honor of President's Day, historical African American figures in honor of Black History month, and their usual academics. They also worked on arts and crafts pertaining to these

topics as well as Valentine's Day. Much thanks to the parents who brought in snacks for the children to enjoy.

This month we have a few changes in the classroom. We welcome Miss Jackie to the 3 year old classroom as well as children transitioning in

an out the 3 year old room.

In regards to lessons, we will be evaluating the children to see their knowledge of certain material. Also, the children will be working on writing and recognizing their names. Lastly, we will be meeting with parents in regards to report cards.

Mr. Temok's Guppies Class 3 and 4-year-olds

Shapes Project

Hi Dear Parents, February, was a short month. We covered the themes transportation, Valentine's Day, and shapes. The students were able to learn new Spanish words and follow directions like sit at the table and clean up. In March, the students

will discover the world of plants by planting seeds, watching the seeds grow, and caring for them. We are going to reinforce our color recognition by making the rainbow. Finally, March is going to be a fantastic month to incorporate more outdoor

activities if Mother Nature allows us. We will also continue our Spanish directions, colors, and animals. Also parents, please remember to sign your child in and out at the front desk. Thank you!

Ms. Barber's Bumble Bees Class 3 and 4-year-olds

To recap the month of February, the Bumblebee classroom turned into the post office. We learned how to address a letter, place it into the envelope, and mail it. We also learned some fun facts about Black history month. Then we took a trip to the dentist so we could learn about our teeth. We learned that as a baby we have 20 baby teeth and as we grow up

and become an adult we would then have 32 teeth. We also enjoyed our Valentine's Celebration and bought in all healthy snacks to protect our teeth!!! We also focused on our names and how to recognize, not only letters in our name, but the sounds the letters make as well. In addition, we learned the

value of loving one another so we painted our hearts red and pink. For the month of March we will continue to focus on recognizing our name and letters, shapes, colors, friendship, food groups and dinosaurs.

Mail for the Post office

Ms. Taga's Bears Class 4 and 5-year-olds

Our Quilts

Happy Spring! To recap the month of February, we were very busy. We went over the color purple, drawing our own story with a purple crayon, celebrated Valentine's Day with a party and fun projects, made our own quilt and discussed the color red. For the month

of March, we will discuss shapes, transportation, spring, umbrellas and celebrate our spring celebration. For science, we will plant flowers and discover their growth from seeds in the weeks to come. We will also talk about the change of season and what happens

during this time. We will explore our senses using various natural elements through projects and play and add them to our discussions. For our spring celebration, we will play fun games, make projects, and have a party. It should be a fun month!

Ms. Megan's Koalas Class 5-year-olds

Hi Parents! Well we are almost out of the woods of winter and hopefully spring will be just around the corner. The children had a great month of learning in the month of February. We studied famous African Americans in history, learned about hearts, and continued our lessons on math and past sight words. We had such

a great and short month and we can't wait to see what's to come next month.

For the month of March, our class will be learning about new and exciting themes. We will be learning about St. Patty's day, Ireland, how buildings are made, and how large and small transportation vehicles function. We will also

continue our lesson on sight words and math skills.

Parents, I will be holding parent-teacher conferences at the beginning of March. If you have any questions or would like to meet with me just let me know and I will be happy to help. Thank You!
