Toddler Town Announces Partnership with ABC Mouse

We at Toddler Town are proud to announce a new partnership with the online learning resource ABC Mouse. This program offers an educational program for children ages 2-6 years old. The entire curriculum is divided into 6 academic programs that each address the full-range of learning levels for children in a variety of areas. The program has specific sections that address: Reading, Math, the World Around Us (science and social studies), Arts & Colors, and Music & Songs. ABC Mouse also has an online Library for the children to access, as well as interactive Puzzles and a section of educational Games.

ABC Mouse is loved by children, but also by their parents and teachers. This program has received both a Teacher's Choice Gold Award and a Parent's Choice Award for Children's Educational Technologies. The cost of the program will be \$7.95/month per child. This is a small price to pay for such an extraordinary service.

As we begin to implement this program, each child will receive a letter explaining how to register with ABC Mouse and a copy of *The Boy Who Cried Wolf* to take home. When you get your child started on the website they will have the opportunity to engage in interactive learning experiences concerning the book in addition to many, many others. If you have any questions about how to register with ABC Mouse or how to navigate the site, feel free to ask Robert for clarification. To learn more about the ABC Mouse curriculum and learning levels, please visit their website:

TAKE NOTE

- Please check your child's cubby for appropriate clothing.
- Have you made your payments to Mr. Robert regarding chocolate fundraiser?
- Have a great summer!

UPCOMING DATES

- June 19th – 5 year old graduation at Lagos Banquets @ 6:30pm

6121 W Diversey Ave,
Chicago, IL 60639
(773) 745-8146

Ms. Jackie and Ms. Lee's Teddy Bears Class 2-year-olds

Gluing the wool on the sheep

Last month we focused on nature and the environment. Since the children enjoyed this so much and because the weather is getting nicer, we will continue our lesson on nature for this

month. Also, we will be exploring the outdoors with more frequent nature walks. This month we will also focus on working one on one with the children on academics. Evaluations were done in May so this month we will be working with the children in the areas that they are struggling in. We ask

parents to help the process by working at home with their children. Consistency, practice, and repetition are key when it comes to progress. Lastly, parents please check your child's cubby and change/add any clothing they may need for this season.

Mr. Temok and Ms. Irene's Butterflies Class 3-year-olds

In the month of May the students discovered the world of plants by: planting seeds, watching them grow, and caring for them. In honor of Mother's Day, the students made frames for their mothers. We also focused on the Five Senses and worked with shapes.

With the weather getting nicer the students were able to enjoy the playground.

In the month of June we will be making a gift for Father's day. It will be a surprise. In addition, we will work in the library area and we want encourage

parents to read at home to the children. Parents, please bring your child favorite book so we can read as a classroom. Finally, if Mother Nature allows us, June will be a fantastic month to have a picnic.

Our Growing Plants

Ms. Megan's Guppies Class 3 and 4-year-olds

3D Face with Hair

What great weather we have been having! The month of may was a great month to discover our environment! We studied many subjects like different kinds of environments, different animals that live in those environments and plant life. We had many

great projects to go along with them as well.

For month of June we will be learning about our next couple of letters q-r, ocean animals, and summer activities. We will also be celebrating school spirit week in our class! Parents, we will be spend-

ing a lot of time outside in class. Before they come to school please apply sunscreen on the children to avoid sunburn and also please bring them in or with gym shoes. If you have questions please me and I will be happy to help. Thank you !

Ms. Selina's Bumble Bees Class 3 and 4-year-olds

This past month the children worked on the Dr. Seuss. Theme. We read many books that Dr. Seuss has written as well as books that are just part of the Dr. Seuss collection. We have also included our basic reviews into our lessons such as shapes, colors, numbers, and alphabet. The children have shown

much progression and are showing eagerness to learn. I am happy to say that spring has finally arrived and we have been outdoors a lot more and the children have loved every minute. Next month the children will work with the very hungry caterpillar, the very grouchy ladybug, and the very busy spider. We will

also discuss what summer will bring. We are hoping to have a lovely month. Please also check cubbies for more suiting clothes for the summer such as short sleeve shirts and shorts thank you.

Art Project with Letter Shapes

Ms. Taga's Bears Class 4 and 5-year-olds

Letters with popsicle sticks

To recap the month of May, we reviewed our alphabet by creating our favorite letters as well as the letters in our names. We also touched on our opposites by reviewing more/less. We also celebrated Mother's Day by making our

Mother's Day projects.

For the month of June, we will continue to review our opposites and positions of on/off, big /little and inside/outside. We will also be talking about summer. During this time, we will begin our summer projects using

summer related collage materials and introduce water play--weather permitting, and continue to enjoy outdoor play as the weather warms up. We will work on our Father's day projects and cards. It will be a busy month!

Koalas Class 5-year-olds

The Koalas continued assessments throughout the month of May with occasional breakout days outdoors on our playground as well as on the side of the school when Mother Nature allowed us to do so. The class has been working on themes such as butterflies and alphabet hunts this month and the children have had the opportunity to meet a new friend in the class the

past few weeks. Ms. Barber has been helping out Mr. Robert in the class and we are happy to have her at Toddler Town. The next month will bring us happiness and sadness as most of our friends will be graduating and moving on to new schools. The graduation is set for Thursday June 19th @ 630 pm at Lagos Banquets. The class is very excited to graduate and move

onto the Big school next year. Mr. Robert will continue assessing the children for report cards throughout the month of June. See Mr. Robert if you have not already done so to receive your assigned leave date. Please check your child's cubby box to make sure they have the appropriate clothing for the weather/season.
