Teddy Bear Classroom-2yr olds

Dear Parents,

The summer is almost over; we will be focusing on the spending lots of time outside if weather permits and working on MATH. We will work on quantifying, counting, classification, identifying numbers, and many more concepts. Some of our activities will include reading books about numbers, take home projects, games, lessons, and outside activities. We have many things planned for this month so stay tuned for many great projects. Also parents please remember to sign up for a time to read, play, or talk about a topic with the children. We would greatly appreciate it. Sign up sheet is at sign in/out desk. Your Mama Bears, Miss Selina and Miss Jackie.

Butterfly Classroom-3yr olds

Summer is quickly coming to an end, but not before we explore the outdoors in our new unit for August; Lets Go Camping! So lets get ready to grab our gear and hike into a camping adventure. The class will pitch a tent, build a fire, and strum a guitar as part of this great exploration. Our parents will have the opportunity to join the class in building kites and S'mores, how fun! We will experience the mysteries of nature as we play outdoor games and activities in this fun filled camp unit.

Mrs. Claudia & Ms. Irene

Bears Classroom 4/5yr olds

We are winding down the summer! For the month of August we will be finishing up our opposites by reviewing up/down, under/over, and touching on same/different and sequencing. We will continue to create using summer collage materials for art and add boats and fish to our water play area. It will be a great month of fun to end the summer session!

Ms. Taga

Lions Classroom 4yr olds

Summer is soon beginning to come to an end! But that's not stopping the Lions Class from enjoying these last couple of summer days. For the month of August the children will be learning about Zoo Animals. They will learn the needs of zoo animals and how they communicate with each other with the sounds they make. To incorporate this Zoo Animal unit at home, plan a day to take your child to the zoo, there they will be able to see all the different types of zoo animals. Enjoy the rest of your summer!

Ms. Jessica

Dragons Classroom-4yr olds

Dear parents.

The summer is almost over, but we still have one month to fill with fun. For the month of August we will be learning about dinosaurs. Some of the fun activities will be, digging for bones, making a shape -a-saurus, and creating a Stygimoloch dome.

The children will be learning many new words. Don't forget to ask them what they have learned each day.

Ms Hope

Koalas Classroom-5yr olds

Bye Bye Summer Vacation! Its about that time of year again where we get ready for a full school year of learning, exploration, growth and fun!

In the month of August we will be saying Goodbye and Good Luck to many of our friends as well as Welcoming new ones for this year. Our school year session will begin on August 26th. We will be sending home each childs new binder for the year as well as information regarding rules, homework, responsibilities, and supplies. Our 1st unit will consist of All About Me so that we can get to know everyone. Lets have a great year! Mrs. Jane & Ms. Megan

Important News

Parents be aware that children will be transitioning to new classrooms this month so please be sure to have a new change of clothing and any other items updated.

It is imperative that EVERY-ONE see Mr. Robert in the office to update the Emergency Information in your childs file. You can also give that information to your childs teacher so they can give it to the office.

Tuition payments are due on time to avoid any late fees.
