Again the months are flying by and now we are in June!!! May went by so quickly, but we made sure to enjoy every last bit of it. It came to a surprise with all the rain we experienced, but when the weather was nice, we made sure to take the children out to the playground to get those large motor muscles moving. Last month we also celebrated Mother's Day and had picture day. Keep a look out for posters regarding picture arrival on our doors and bulletins.

REMINDERS:

- Graduation will be next month in July 10th!!!
- June 21st: Father's Day!!!

Now that we enter June, we will be so full of things to do as this month we begin our Summer season. We will be sure to enjoy more of the outdoors, Mother Nature permitting. With that said, the children will also begin enjoying more water play activities. Please be sure to bring an extra change of clothes. Also, the weather is getting hot, so please update your child's cubby with more weather appropriate attire. This month, the children will also be preparing gifts for Father's Day. This month the kindergarteners will be preparing for graduation as they practice their graduation songs. Don't forget to mark your calendars for July 10th. More information will be going out as we approach the date.

Enjoy the month of June parents as the weather this month will be the month to do so!

Fun Facts About June:

- ♦ Did you know that the longest day of the year is June 21st? Well it is. So if you feel the day is long, now you know why.
- ♦ June 21st is the 1st day of Summer!!!
- ♦ June 14th is the month we celebrate National Flag

Ms. Stephanie and Ms. Vanessa's Bumblebees Class 2-year-olds

Flag Spirited Puppets

Now that the month of May is gone we will look forward to a wonderful summer! Last month for Memorial Day, the children had fun making flag spirited puppets!

Now for June we are looking forward to summer ac-

tivities outdoors with tents, water play, beach, and lots of fun crafts!! We will also celebrate Father's Day, have a picnic day, and have a marching band! Our crafts include making beach balls, a gift for daddy, making instruments and many more

fun summer crafts. Our letters will be D and W! We will continue to work on our colors, alphabets, shapes and numbers! Here in the Bumblebee we are "Ready, willing, and able to explore!!!"

Mr. Shonn and Ms. Daulet's Chipmunks Class 3-year-olds

Howdy All! What an interesting month we had in May, and we are going to kick it up a notch (or three) going into June. Last month we focused on the basics; Colors, Numbers, Letters, and Living Creatures.

In June our focus will be on Vehicles of all kinds, The Human Body, Weather, and Lines

(lines compose every written word in our language). Focusing on writing lines and recognizing types of lines will develop writing, drawing, and fine motor skills. In general, the areas of interest our class will focus on are things that three year olds are intrinsically interested in...with an unusual or

somewhat quirky area of interest thrown in for flair to keep things popping.

Parents are always welcome to come in and volunteer, and please don't forget to check Teaching Strategies for information on your favorite Chipmunk's progress and activities.

Arts and Crafts

Ms. Alex, and Ms. Tammie's Butterflies Class 4-year-olds

Colorful Jellies

It's that time of year again (summer time) and the Butterflies are ready to have fun in the sun! It's time to break out weather appropriate clothes to keep cool on hot and sunny days. **Please be sure to refill your child's cubby box with extra summertime/under garments.**

In the month of June and

throughout the summer, there may be more water play outdoors. Therefore, **please be sure to provide shoes/sandals that are safe for running outdoors (shoes/sandals with back straps and grips).** Last month, we had fun with rhyming, manners, and ocean life. This month we

will learn about zoo animals, practice making lines (for writing & fine motor development), and introduce the summer season with our 2nd Annual Lemonade Stand. At the end of the month, we will review what we have learned and incorporate phonics/counting. We will also practice staying cool and hydrated by drinking plenty of water.

Ms. Jaya's Sharks Class 5-year-olds

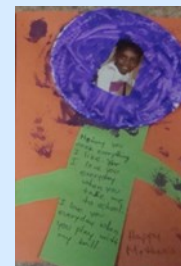

Welcome June! We had so much fun pretending to be Pets & Butterflies, talking about transportation, and learning the importance of mother in our lives & what we can do for them.

In June we will spend most of our time practicing our Graduation songs. We are also looking forward to learn about

Frogs, Fathers, Summer, and the Beach. The letters we will learn are Tr, Sl, St, etc. For math, we will practice counting by 10s up to 100, practice early additions, and review shapes. We will continue improving our early reading skills and practicing writing their names. A variety of art projects, games, and outdoor ac-

tivities will accompany our learning.

Summer is knocking on our door and we are enjoying the beautiful weather by spending as much time as possible outdoors! Please check to be sure your child has appropriate changing attire. children, bring books related to the themes.
